

Nova P300c Softbox

Description

The Nova P300c Softbox was designed specifically to work in tandem with the Nova P300c RGBWW LED Soft Light. This softbox not only increases the size of the light source to 70x50cm (approximately 27.5x20 in.), creating an even softer output, but also includes a 40° Fabric Light Control Grid to control the beam angle. This light comes with a custom speeding bracket that slides directly into the Nova P300c’s accessory slot, allowing for a seamless, secure attachment.

Main Features

- 70x50cm Rectangular Softbox for LED Panels (approx. 27.5x20in.)
- Compatible with the Nova P300c
- Softbox Brack Fits Seamlessly into Nova P300c Accessory Slot
- Includes ¼ Grid Diffusion Sheet
- Includes 40° Fabric Light Control Grid
- Includes Carrying Bag to Store Accessories
